

July 21-23, 2004

<http://www.civr2004.org>

**Organising Committee:**

**General Chair**

Alan Smeaton, *Dublin City University*

**Programme Co-Chairs**

Noel O'Connor, *Dublin City University*

Arnold Smeulders, *University of Amsterdam*

**Practitioner Co-Chairs**

Yiannis Kompatsiaris, *Informatics and Telematics Institute, Greece*

Peter Enser, *University of Brighton*

**Finance**

Noel Murphy, *Dublin City University*

**Local Arrangements**

Gareth Jones, *Dublin City University*

Sean Marlow, *Dublin City University*

**Publicity**

Cathal Gurrin, *Dublin City University*

Hyowon Lee, *Dublin City University*

**Programme Committee:**

Kiyo Aizawa, *University of Tokyo*

Erwin M Bakker, *Leiden University*

Alberto Del Bimbo, *University of Florence*

Nevenka Dimitrova, *Philips Research, US*

David M Blei, *University of California, Berkeley, US*

Patrick Bouthemy, *IRISA / INRIA, France*

Josep R. Casas, *Technical University of Catalonia (UPC)*

Shih-Fu Chang, *Columbia University*

Tsuhuan Chen, *Carnegie Mellon University*

John Eakins, *University of Northumbria*

Graham Finlayson, *University of East Anglia*

Andrew Fitzgibbon, *University of Oxford*

David Forsyth, *UC Berkeley*

Theo Gevers, *University of Amsterdam*

Abby Goodrum, *Syracuse University, US*

Patrick Gros, *IRISA / CNRS*

Alan Hanjalic, *Delft University of Technology*

Richard Harvey, *University of East Anglia*

Paola Hobson, *Motorola Research Labs UK*

Thomas Huang, *University of Illinois at Urbana-Champaign*

Ichiro Ide, *National Institute of Informatics, Japan*

Horace Ip, *City University of Hong Kong*

Ebroul Izquierdo, *Queen Mary University of London*

Ramesh Jain, *Georgia Tech, USA*

Alejandro Jaimes, *FujiXerox Nakai Research Center, Japan*

Joemon J. Jose, *Glasgow University, UK*

Avi Kak, *Purdue University*

Josef Kittler, *University of Surrey*

Anil Kokaram, *Trinity College Dublin*

Wessel Kraaij, *TNO, The Netherlands*

Clement Leung, *Victoria University, Melbourne*

Michael Lew, *Leiden University*

Paul Lewis, *University of Southampton*

R. Manmatha, *U. Mass*

Stephane Marchand-Maillet, *University of Geneva, Switzerland*

Jiri (George) Matas, *CVUT Prague*

Bernard Merialdo, *Eurecom, France*

Philippe Mulhem, *CLIPS-IMAG, France*

Milind Naphade, *IBM Research*

Jan Nesvadba, *Philips Research*

Paul Over, *NIST*

Eric Pauwels, *CWI*

Dragutin Petkovic, *San Francisco State University*

Matthias Rauterberg, *Technical University Eindhoven*

Stefan Rueger, *Imperial College London, UK*

Yong Rui, *Microsoft Research*

Andrew Salway, *University of Surrey*

Stan Sclaroff, *Boston University*

Nicu Sebe, *University of Amsterdam*

Linda Shapiro, *University of Washington*

Ibrahim Sezan, *Sharp Labs of America*

Thomas Sikora, *Technical University of Berlin*

John R. Smith, *IBM Research, US*

Michael Strintzis, *Informatics and Telematics Institute, Greece*

Sanghoon Sull, *Korea University*

Tieniu Tan, *Chinese Academy of Sciences*

Qi Tian, *University of Texas at San Antonio*

Belle Tseng, *IBM Research*

Arjen P. de Vries, *CWI, The Netherlands*

Thijs Westerveld, *CWI, The Netherlands*

Marcel Worring, *University of Amsterdam*

Guangyou Xu, *Tsinghua University*

Li-Qun Xu, *BT Exact*

HongJiang Zhang, *Microsoft Research Asia*

Xiang (Sean) Zhou, *Siemens Research*

Andrew Zisserman, *University of Oxford, UK*

**Important Dates:**

Paper Submission: 6th February '04

Notification of Acceptance: 19th March '04

Camera Ready Copy: 16th April '04

# CIVR2004

July 21-23, 2004

## International Conference on Image and Video Retrieval

Dublin City University, Ireland

Image and video storage and retrieval continues to be one of the most exciting and fastest-growing research areas in the field of multimedia technology. However, opportunities for the exchange of ideas between different groups of researchers, and between researchers and potential users of image/video retrieval systems, are still limited. The International Conference on Image and Video Retrieval (CIVR) series of conferences was originally set up to illuminate the state of the art in image and video retrieval between researchers and practitioners throughout the world. This conference aims to provide an international forum for the discussion of challenges in the fields of image and video retrieval. CIVR2004 is seeking original high quality submissions addressing innovative research in the broad field of image and video retrieval.

A unique feature of the conference is the high level of participation from practitioners. Applications papers and presentations suitable for a wide audience are therefore particularly welcome.

See conference web site for paper submission details.

<http://www.civr2004.org>

**Topics of interest include but are not limited to:**

- Query models, paradigms, and languages for image/video retrieval
- Content-based indexing, search and retrieval of images & video
- Human perception based image/video retrieval
- Image/video search and browsing on the Web
- Similarity measures between images/video
- Multimedia content analysis and understanding
- Semantic retrieval of images and video
- Advanced descriptors and similarity metrics for audio and video
- Evaluation of image and video retrieval systems
- Studies of information-seeking behaviour among image/video users
- HCI issues in image/video retrieval
- Database architectures for image/video retrieval
- High performance image/video indexing algorithms
- Novel image data management systems and applications
- Affective/Emotional interaction or interfaces for image/video retrieval
- Interaction with medical image databases
- Satellite imagery analysis/retrieval
- Image/Video summarization and visualization
- Learning and relevance feedback in image/video retrieval

The proceedings will be published by Springer as part of their series of Lecture Notes in Computer Science (LNCS). In addition, selected papers will be invited to submit an extended version to a special section of the IEE Proceedings on Vision, Image & Signal Processing (VIS).
