BlackBerry 7270 Wireless Handheld for Enterprise WLAN Now Available

BlackBerry Product Demo [Click Here](#)

(Request to be contacted)

Note: This online demonstration requires Macromedia Flash player 6. If you do not have Flash player 6 installed please go [here](#) to get your free download.

The BlackBerry 7270 Wireless Handheld™ provides a superior wireless email and data experience, as well as Session Initiated Protocol (SIP) based IP telephony for facility-based employees - all in a single, integrated device. It operates on 802.11b Wireless Local Area Networks (WLANs), allowing on-premises users to move freely with wireless access to desktop phone functionality and a rich suite of applications including email, browser and organizer.*

The BlackBerry® 7270 is fully compliant with 802.11b standards and works with BlackBerry Enterprise Server™ v4.0 to provide users and IT departments with:

- ▶ "Push" delivery of email and data
- ▶ SIP based IP telephony
- ▶ Ability to leverage WiFi® investments
- ▶ Advanced security features
- ▶ Ample memory for application and data storage
- ▶ Wireless access to intranet and Internet based applications
- ▶ Single mailbox integration with IBM® Lotus™ Domino®, Microsoft® Exchange and Novell® GroupWise®
- ▶ Attachment viewing
- ▶ Cradle-less email and organizer synchronization
- ▶ Remote address book look-up
- ▶ Java™ development platform based on open standards
- ▶ Centralized management and support

* Certain features outlined in this document require a minimum version of BlackBerry Enterprise Server software, BlackBerry Desktop Software, and/or BlackBerry handheld software and may require additional third party software or development for access to corporate applications. Installation and use of third party products and services with RIM's products and services may require one or more patent, trademark or copyright licenses in order to avoid infringement of the intellectual property rights of others. You are solely responsible for determining whether such third party licenses are required and are responsible for acquiring any such licenses. To the extent that such intellectual property licenses may be required, RIM expressly recommends that you do not install or use these products and services until all such applicable licenses have been acquired by you or on your behalf. Your use of third party software shall be governed by and subject to you agreeing to the terms of separate software licenses, if any, for those products or services. Any third party products or services that are provided with RIM's products and services are provided "as is". RIM makes no representation, warranty or guarantee whatsoever in relation to the third party products and services and RIM assumes no liability whatsoever in relation to the third party products and services even if RIM has been advised of the possibility of such damages or can anticipate such damages.
